YOUR KITCHEN & BATHROOM

REMODEL WITHOUT STARTING FROM SCRATCH

Family nest, or cosy couple's hangout? Town pad, or rural escape? Whatever the size or type of your home, it's the most important place in the world to you.

So it's good to know that when your precious space starts to look too 'lived in', you can remodel it without starting from scratch.

We can update your kitchen or bathroom without the disruption of completely removing the old one.

Our elegant doors, splashbacks and etherium® by E-Stone worktops are made-to-measure and precisely cover your existing surfaces, leaving a pristine, luxurious finish.

They can withstand just about anything your life throws at them. Sticky fingers. Even stickier spills. No problem thanks to our tough, easy-care construction.

From our place to yours, we bring you the very best in materials, expert craftsmanship and end-to-end project management.

The smarter way to renovate...

Tell 'em Janet sent you.

The top that fits on top

makeovers made easy

At just a quarter of an inch thick our etherium® by E-Stone surfaces are super-light and slim. Yet they're tougher than stone, more flexible than wood and come with our manufacturer's 10 year warranty.

The 'top that fits on top' is unique. Unlike any other hard surface finish, our materials are made bespoke to your requirements.

They're fitted directly onto existing worktops, tiles and flooring, and bonded permanently to the original.

There's no need for added reinforcement, none of the usual upheaval and no builder's waste to deal with. All you're left with are gleaming, diamond-polished surfaces that look and feel perfectly at home.

Don't start over, makeover

We will help you achieve your dream kitchen, without the inconvenience and expense of buying completely new.

Our expert project management, combined with highly skilled fitters, can save you up to 50% on the cost of a new kitchen, as well as taking much less time to install it. If you're happy with your existing layout, our service is the

ideal way to beautifully remodel and reinvent the heartbeat of your home.

Browse the brochure and pop into your local showroom to see, touch and choose your stunning new etherium® by E-Stone worktop surfaces, doors, splashbacks, flooring and walls. We're here to make sure the design, colours and materials are exactly right.

“ It was a short process from placing the order to installing the worktops. A neat and tidy installation all, finished in one day. ”

Worktop: Hydra White
Drawer front: London Concrete

Surface beauty, core strength

technology and tradition combined

The way we produce our etherium® by E-Stone surface is what makes them so strong and versatile – any of them can be used as worktops, wall coverings, floorings and splashbacks.

We take high quality granite and combine it with state-of-the-art polymer resin. It's then moulded into large, multi-purpose engineered stone slabs, known as etherium® by E-Stone, only 6.7mm thick. We do the

same with natural quartzite to create finer-grained materials and lighter colours. The slabs are backed with our trademark Flexiweb™ mesh, then diamond polished for a deep, enduring shine.

Versatility is our superpower

Our expertise and products aren't limited to the kitchen and bathroom. Utility rooms, caravans, motorhomes, boats – we can even transform garden sheds.

Our processes combine the aesthetics of natural stone with the enhanced performance of a composite. The results are flawless, multi-purpose surfaces that are non-porous, and resistant to heat, knocks, and scratches.

We can flex the surfaces to create flowing lines and contours. Perfect for waterfall or peninsular ends, washbasin surrounds and island units.

Open up to a smart new look

distinctive doors in every style

Replacing your cupboard doors and drawer fronts is the simplest and quickest way to freshen up a tired kitchen or bathroom. It also avoids the cost of replacing the whole cabinet.

Our replacement doors and drawer fronts are manufactured to the highest quality standards. They're made from ¾" (18mm) thick colour-matched board and faced with a mix of materials

in over thirty different colours. There's a choice of edge finishes and a range of fascia styles, creating hundreds of different combinations to suit any décor theme.

Storage cupboards to suit

Any cupboard, any colour, any style you like. If it has a door on it, we can look at refitting it with a new one to complement the rest of the makeover.

Solid wood painted doors

Our new range of Solid Ash hand painted doors and accessories in a selection of standard or bespoke paint colours offer incredible versatility and luxury to appeal to every taste, budget and desire.

Soft close hinges fitted as standard, for cushioned, comfortable living.

Enjoy the smooth and silent action of quality drawer runners.

Choose your finishing touches from our wide range to complete the look.

The finishing touches

refine and relax

Just say the word and we'll supply and fit kickboards, cornices, canopies, shelf units, storage drawers and a host of other accessories. We also offer a range of door handles and knobs, as well as soft-close hinges and drawer runners.

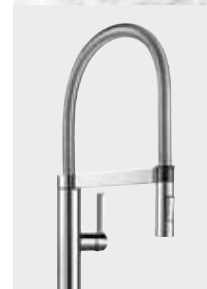

For the kitchen, we can install sink units and taps, electric and gas hobs, built-in ovens, fridges, freezers and dishwashers, and sleek cooker hoods, all made by famous brands. For bathrooms, we can add quality suites, brassware and showers.

We can also lay hardwearing, non-porous floor tiles made from the same material as our worktops.

The final touch is a 10 year warranty on etherium® by E-Stone worktops and a six year guarantee for replacement doors.

home comforts

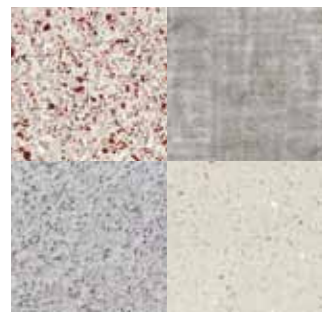

Neutral contrasts

Crisp, clean Portland White worktops and upstand keep the look fresh and classic. Fitted on customer's existing kitchen units, in under two days.

etherium® By E-Stone

Materials made for life

Create with colour

Whichever material you choose, and whether you're going for statement colour or understated neutrals, you'll find gorgeous shades available in a wide range of patterns, flecks and swirls.

24/7 built-in antimicrobial technology

Our exclusive partnership with Microban® allows our etherium® by E-Stone surfaces to be the only engineered stone products to offer 24/7 Microban® protection. Microban® is a cutting-edge antimicrobial technology that is built into all etherium® by E-Stone products during the actual manufacturing process and has a long history of safe and effective use that lasts for the lifetime of a product.

Born of a dream and crafted by E-Stone, etherium® by E-Stone is a unique combination of contrasts

It has the look of stone cut from a quarry, yet is made with up to 72% post-consumer recycled material. It is formed by the fusion of millions of small pieces, yet is practically unbreakable, unscratchable and unstainable. It can be installed in a day and comes in countless styles of marble, granite and quartz, but is known by one name: etherium® by E-Stone.

An easy all-rounder

Quartz is extremely hardwearing and low-maintenance for day-to-day living. It's great for kitchen worktops, but equally at home as bathroom vanities, shower walls, bath surrounds and flooring.

Heart of stone

Only the highest quality granite will do, so it's hardly surprising that our granite worktops are one of our most sought-after items. The timeless, earthy tones and natural feel make it an ideal fit for many kitchens and bathrooms.

Shining sophistication

Elegance never loses its appeal. Our striking glass worktops are a more convenient and affordable way of achieving a premium Italian look. Made with up to 72% recycled glass, they're not only stunning to see, they're eco-conscious too.

From recycled to upcycled

Smooth and refined to the touch our porcelain surfaces are made from premium recycled bathroom products. Porcelain is one of the toughest substances on Earth and provides outstanding hardness, strength and durability.

Eco-chic is here to stay

PIONEERS FOR THE PLANET

Our commitment to the environment has led us to transform everyday items into beautiful new assets.

Cheers to recycling. We were the first company to combine recycled beer, wine and mineral water bottles with polymer technology.

Washing our hands of imperfect bathroom porcelain just isn't an option. We take it and make it into one of the toughest materials on Earth, whilst enhancing its beauty. Not surprisingly, we've been formally recognised and accredited for outstanding environmental management:

- Our etherium® by E-Stone surfaces are made from recycled materials
- They're lighter and don't need extra structural reinforcement for installation
- Heat, flame, abrasion and water-absorption resistant

72%

OUR GLASS RANGES USES UP TO POST CONSUMER RECYCLED GLASS

Classic elegance

New doors, worktops and splashbacks turned these kitchens back into the proud, beating hearts of the home. All the work was completed in a day.

Ciao Italia

a lasting impression

If Italian style inspires you, explore our Trascenda™ collection.

The designs are based on the most precious varieties of marble quarried in Italy, molten enamels and weathered objects. All without the high price tag and demanding maintenance requirements.

Carrara - a design classic, with greyish-white ground and feathery veins.

Calacatta - distinguished by bolder veining and golden undertones.

Portland Silver - a modern statement with darker textured shadows.

Portland White - a lighter variation of the Portland Silver.

Statuario - white ground feathered with fine, smoky veining for a timeless look.

Arabescato - distinguished dusty greys and soft whites are made with recycled glass and quartz and mimic the traditional beauty of marble.

Trascenda™ integrated surface patterns imprint distinctive designs and naturalistic effects to our work surfaces range.

Created using cutting-edge dyeing techniques, the designs are transferred permanently into the surface of our quartz materials. So you can trust that they're non-porous, and resistant to heat, knocks, and scratches.

Seeing and feeling is believing

REMODEL, REFRESH, RENEW

Life is for living well. Especially when you're at home. We can remodel key areas to give your place a stunning new look and feel. You'll love the sense of satisfaction you get whenever you walk into the room, from the floor to the walls and doors, and everything in between. It's amazing what can be achieved without the inconvenience and expense of a complete refurbishment.

We can give our famously slender work surfaces a 'chunkier' look.

No matter how thick they need to be. We can also adapt them into up-to-the-minute waterfall ends by seamlessly lengthening the edge piece down to the base plinth.

Top performance

Each of the materials within our etherium® by E-Stone range is protected by our **ForeverSeal®** guarantee. This polymer resin makes our worktops non-porous and stain and scratch-resistant. Unlike other brands, our etherium® by E-stone surfaces never need resealing.

When our customers are happy, so are we

“ Products are first class, good range on offer. First class consultant. Fitter certainly knew his job. Our bathroom looks wonderful. Recommend them YES, no hesitation. We had our kitchen done a few years ago and it's still as good as new. Thank you. ”

Mr & Mrs Brown
Cheltenham
10/10

“ It's refreshing to deal with a company that is so enthusiastic about their product. Customers are treated with respect and the quality of workmanship is excellent. I have shown off our subway tiled splash back with pride. ”

Mrs Tait
Perth, Scotland
10/10

“ Products was first class, exceeding expectations. Team of fitters could not be bettered. They were prompt, efficient, courteous and extremely skilled in their jobs. We couldn't really have asked for more - they even left the kitchen in a cleaner state than when they arrived! We would highly recommend the company and its products. ”

Step-by-step stress-free transformations

SEAMLESS SERVICE FROM START TO FINISH

You couldn't find a more stress-free way to remodel key areas in your home. We will take care of everything on your behalf, and we mean everything. After the initial consultation and advice, including previews of your design choices,

we'll measure up, provide a quote and manage the project completely. Our own specialist team of fitters will arrive to install, plus an approved local electrician or plumber if needed. Job done. Usually in just one day.

Our fitters
are highly skilled
in-house
specialists

Complimentary design consultation

We can come to you, or you can visit one of our nationwide showrooms to discuss your design requirements and obtain your bespoke quotation. We also offer virtual consultations!

Measuring up

One of our trusted fitters will visit your home to precision-measure your new kitchen or bathroom. All our fitters are fully qualified, accredited and trained specifically in the use of our unique product and installation system.

Fabrication and fitting

Your installation will be project managed from start to finish, including any tradespeople that you may require. Fabrication is on site at our UK worktops.

Fitting, from start to finish is often as little as one day.
